- Introduction

The project aims to develop a website for promoting and showcasing the Brain Byte Cube, a premium magnetic speed cube designed for speedcubers. The website will serve as a platform to highlight the features, specifications, and benefits of the Brain Byte Cube, enticing potential customers to make a purchase.

- Purpose of the Website

The primary purpose of the website is to provide information about the Brain Byte Cube and its unique features. It aims to create awareness among speedcubers about the advantages of using the Brain Byte Cube, such as its calibrated magnets, optimized structural design, and easy-to-use tensioning system. Additionally, the website will facilitate online purchases, allowing customers to buy the Brain Byte Cube directly from the platform.

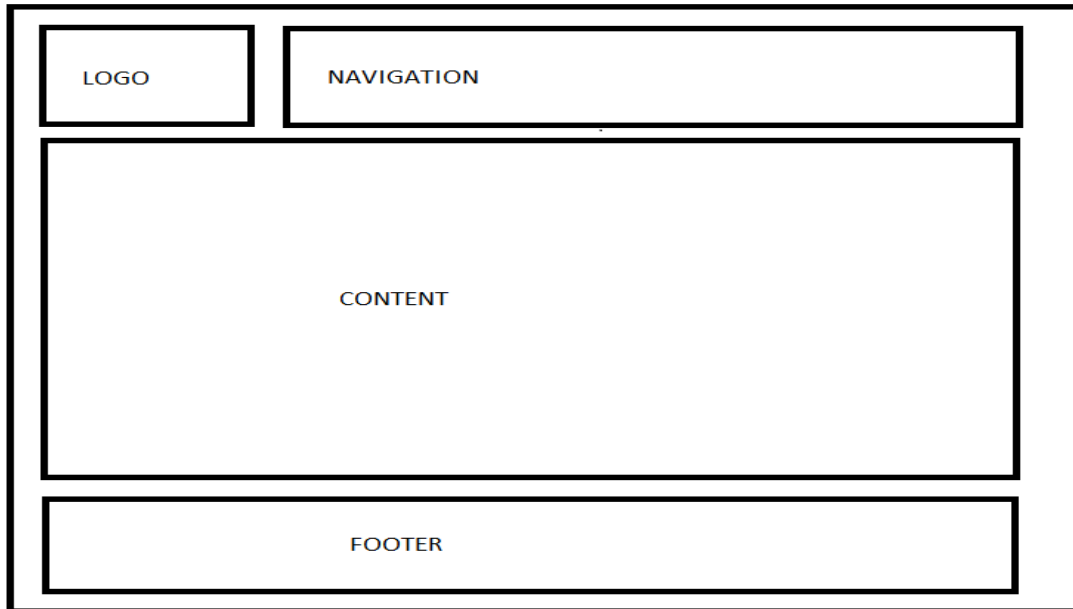

- Target Audience

The target audience for the website includes speedcubers of all skill levels, ranging from beginners to advanced enthusiasts. The website will cater to individuals who are passionate about solving Rubik's cubes and are seeking high-quality speed cubes to enhance their performance. Additionally, the website will target parents and gift buyers looking for premium speed cubes as gifts for their children or friends who enjoy speedcubing.

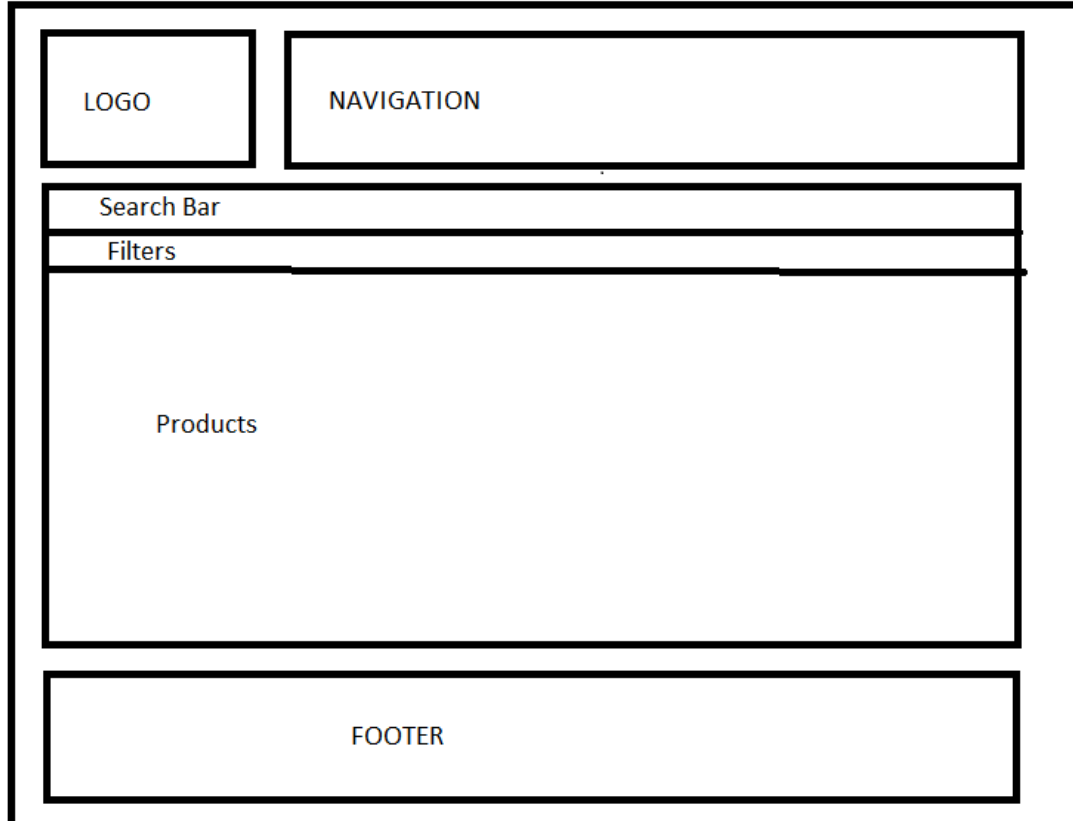

- Wireframe

The wireframe of the website includes a visually appealing homepage featuring the Brain Byte Cube prominently. The navigation menu allows users to easily access different sections of the website, including product information, about us, and a blog section. The homepage also includes social media links for further engagement.
